

Almost In Love

Nate Dogg

I was almost head over heels
I was almost the man of your dreams
And you almost had me sprung
You were almost my only one Just about had me hooked
'Til I had to take a second look, almost in love
Just about had me hooked
'Til I had to take a second look, almost in love Girl, you almost made me change my code
And you almost made my pockets grow holes
Not only did you almost make me buy you gold
Downtown, you almost make me go Just about had me hooked
Had me dippin' in my pocket book, almost in love
Just about had me hooked
'Til I had to take a second look, almost in love Almost in love
Almost in love Almost
The roses we picked just yesterday
Seemed to have withered away Almost
And we've been on the ground
Looking for a four-leaf clover
But there's been no luck
Baby, I guess it's over Almost
But we almost made it to the finish line
Called love, almost Almost, almost gave you my body
Almost, almost gave you my mind
Almost, almost gave you my whole entire soul
Almost, I almost made you mine Almost, almost gave you my body
Almost, almost gave you my mind
Almost, almost gave you my
