

# The Long Song

## Grand Duchy

You went away for so long  
It's such a long song  
It's such a long song I held my breath for so, so long  
It's such a long song  
It's such a long song And it's in your hair  
And it's in your mind  
And it's in your face  
And it's in your solitaire design And it's in your hands  
And it's in your pockets  
And it's in your eyes  
And it's in your eye sockets I never knew where I belonged  
It's such a long song  
It's such a long song I didn't know that it was wrong  
It's such a long song  
It's such a long song And it's in your hair  
And it's in your mind  
And it's in your face  
And it's in your solitaire design And it's in your hands  
And it's in your pockets  
And it's in your eyes  
And it's in your eye sockets And it's in your hair  
And it's in your mind  
And it's in your face  
And it's in your solitaire design And it's in your hands  
And it's in your pockets  
And it's in your eyes  
And it's in your eye sockets It's in your hair  
And it's in your mind  
And it's in your face  
And it's in your solitaire design It's in your hands  
And it's in your pockets  
And it's in your eyes  
And it's in your eye sockets, sockets, sockets
