

Wasteland

Billy Idol

Out into the wasteland
Out into the wasteland No religion
No religion, no religion at all
No religion
No religion, no religion at all
No religion, no religion at all
No religion
No religion, no religion at all
No religion
No religion at all
No religion
Emissionary man amongst the heathen
Can't you see a modern primitive
I came back, I'm gonna find,
I'm gonna give religion
When there was, no religion at all I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion, no religion at all There's a man in need of resurrection
(No religion)
Can't you see a modern primitive
(No religion)
But I'm a man I need my love and
Freedom (No religion)
When there was no freedom at all I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion, no religion at all No religion
No religion at all
No religion
No religion at all In VR land
The future of fun

Tell me what to do
In VR law
Computer crime
Um, so sublime
A fantasy scene
In my machine
Give me secret of life
Let me know, yeah, what I am
And you know that I could get Outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion at all
I'm outta the wasteland
I'm into this head man
I'm outta the wasteland
No religion, no religion at all
I'm outta the wasteland
So far from the the deadland
Ow, I'm outta the wasteland
No religion, no religion yeah
I'm outta the wasteland
So far from the the deadland
Yeah, I'm outta the wasteland
No religion, no religion at all No religion, no religion at all
No religion
No religion, no religion at all
No religion
No religion, no religion at all
No religion
No religion, no religion at all
No religion at all
No religion at all
No religion
