Future In The Past

Chickenfoot

I said, oh, watching them fall
Never heard it all
One by one, thought I'd find the sun
Melting down
Soon I hit the ground
Up so fast
The future in the past

Oh, oh
The future's in the past, woo
Oh yeah, hey
Uh

Well, I was think in it's the real thing
Bucking like a mustang
We got everybody talkin'
Yeah, they talkin'
Well I got mine
Woo
Hey

I got a funky, funky feeling
Somewhere in the past
Still everyday believing
Oh, I'm believin'
Saving the best the best for last
Huh
Yeah
Oh
Saving the best for last
Woo
Saving the best for last

Ya, ya ya ya ya
Ya, ya ya ya ya

Hey, hey hey
Hey, hey hey

Yeah, come on

Come on
Future's in the past
I'm gonna listen to the future, listen to the past
Life ain't 'bout no hurry
I'm gonna save the best for last
Come on, come on
The future's in the past

Listen to the children
Listen to my friends
Let science be my church
Song that never ends, come on
Yeah, come on
The future in the past

We don't have to worry 'bout anything's that's done
We each made of wax
Are melted by the sun,
Come on
Come on

Future's in the past
Climb on the mount top
Stand named with the trees
Listen to the voice, inside you and me
Come on
Come on
Future's in the past
Future is so past yeah
Come on

Future is the past, come on
Come on
Come on
Future is in the past come on
