

# Advent (Snow Song)

## Tabea

Candle light and lemon tea  
Memories awake in me  
It's cold, life is old, Christmas Eve is coming soon  
Jingle bells and lullabies  
Gingerbread and apple pies  
Endless high the starry sky, Jesus is born

Trees have started swaying  
Wind is softly playing  
With leaves, with my scarf, with my coat and with my hair.  
Jingle bells and lullabies  
Eagerness in children's eyes  
He will come, he's the one, he is the king

Now some snow is falling  
Now the snow is falling  
On soil, on my head, on my shoes and everywhere  
Jingle bells and lullabies  
Look around, it is so nice  
what a precious world, I am child and his heir.

Snow is slowly falling,  
Snow is gently falling,  
On grass, on my house, on the fence and everywhere.  
Jingle bells and lullabies  
The pond is filled with broken ice  
I need the Lord as clean water and air.
