

# Sadness

## Porno for Pyros

I got the devil in me it's a cloud  
Sadness it's a cloud  
I want to find compassion and I find it vanishes  
These thoughts I have they seem  
To pass me by like a cloud I pray it's a cloud  
And hope it's just another form of prayer  
It's a cloud I want to find some laughter  
When you laugh they can't kill you  
These thoughts I have they seem  
To pass me by like a cloud Fuel and release  
Happiness is good for an hour  
Fuel and release  
Happiness is good for an hour I hate him for all the things he's done  
Because I love her so  
I got the devil in me  
Sadness it's a cloud
