

Indoors

Warship

I never, I never will be convinced
But you truly feel you're independent
No envy, bitterness or resentment
His gift will be diffused
What's done is done and used
Outside the window, with everything that's evil
In the people you must trust just waiting to deceive you
Could not prevent, shackled by the regiment was
Cause and effect, we are passengers on a spinning object
The word has been confused
What's done is done and used
Mourn the loss of who we are
And embrace who we'll become.
