

# Canal Song (End of Sentence)

Iain Archer

I saw it leave your face  
Its the only thing that I need  
Its the only thing that I need so take it

I caught you and your canvas eyes  
With the only thing that I need  
With the only thing that I need but take it

Something you put in the waste I'm craving  
Its the only thing that I need  
Its the only thing that I need but take it

If you'd prefer it erased then bleach the place  
Its the only thing that I need  
Its the only thing that I need

But my heart it never breaks  
It just beats on despite the ache  
And the day I touch you and make you see  
Broken well be  
You and me

The birds fly south tonight  
They've given up  
Its the only thing that I need  
Its the only thing that I need but take it

The skies grow dark beneath their wings  
What does it mean?  
Its the only thing that I need  
Its the only thing that I need

But my heart it never breaks  
It just beats on despite the ache  
And the day I touch you and make you see  
Broken well be  
You and me
