Call Your Mama

Amanda Overmyer

Help me baby
I'm falling far behind
You cant ever leave me
I'll go out of my mind
Well I need you and your solid lines
Keeping it ready, to rock you right on time
Well I'm strung up on your love and it's alright
Oh baby, your locked in my mind and it's alrightCall your mama
When you need a little love
Call your mama
We'll be working on it, working on it
Call your mama
We'll be rocking out all night
Call your mama
Cause I can make you fell fine
Make you feel fine
Make you feel alrightYou gotta feed the need that's eating at me
And I know that you're feeling me
Oh baby I next you next to me
Cause you're the man, you're the man
You're the man that fills the needWell I'm strung up on your love and it's alright
Oh baby, your locked in my mind and it's alrightCall your mama
When you need a little love
Call your mama
We'll be working on it, working on it
Call your mama
We'll be rocking out all night
Call your mama
Cause I can make you fell fine
Make you feel fine
Make you feel alrightOh Call your mama when you need some lovin'
Call your mama
When you get a little lonely
Call your mama
Cause you know why
Call you mama
Yeah
Call your mama
When you need a little love

Call your mama
We'll be working on it, working on it
Call your mama
We'll be rocking out all night
Call your mama
Cause I can make you fell fine
Call your mama
When you need a little love
Call your mama
We'll be working on it, working on it
Call your mama
We'll be rocking out all night
Call your mama
Cause I can make you fell fineYeah make you feel fine
