

# Succubus (Eurotrash 80's Pop Version)

## Cancerslug

she bitch demon of the night  
she comes to me, bringing death with mourning light  
laced with disease  
and its only right that i should die by her side  
come lay with me  
we will chase away the light forged by disease  
and its only right that i should die by her side  
and even death cannot seperate us
