Supermodel

Moth

Love child to Genghis Kahn
And a beautiful busty Amazon
On the Death Star with her godfather
Darth Vader... and nine months later

[Chorus:]
But that's impossible
Yeah, she's super-colossal
She'll make a fascinating fossil
Supermodel... oh yea...
Supermodel... not just a regular girl

She made of metal and a million miles high
Hair-do scrapin' the sky
Made it with the terminator
Schwarzennegger... 9 months later

[Chorus]

Supermodel... oh yea... [Repeat x 8]
