

Hard Road

Junior Toots

There's a fire on the mountain

 There's a fire in my soul

There's a sign on the highway

 It's a hard road

There's a break in a heart

 There's a break in a bone

There's a ghost in the dark

 It's a hard road

There's blood in the kitchen

 In the shape of a sin

There's a ship in the water

 But it ain't coming in

There's a fall of an angel

 At the end of the show

But who's gonna save my soul

 It's a hard road

There's a heavy jacket

 There's a heavy load

There's a weight on my shoulders

 It's a hard road

There's a howl at the backdoor

 There's a howl in the cold

 There's a broken bottle

 It's a hard road

There's blood in the kitchen

 In the shape of a sin

There's a ship in the water

 But it ain't coming in

There's a fall of an angel

 At the end of the show

But who's gonna save my soul

 It's a hard road

There's a strange feeling coming over me

 Hollow eyes misery

There's someone at the backdoor

 There's someone in the cold

 God save my soul

 It's a hard road
