

# Five Year Winter

Zao

Dear Tiffany  
You've made me nauseous for the last time  
Everything I've said to you  
I will form a spike In order to stop my words  
This time I'll put them in the ground  
Along with my memories and my feelings I'll burn it down and walk away  
Let the fire warm my back  
I wish you would say you hate me  
It would make it so much easier  
So much easier, so much easier, so much easier Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away  
Burn it down Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away Burn it down and walk away  
Burn it down and walk away  
Burn it down and walk away
