Golden Touch

Suburban Legends

Shine, shine
Through the night
With shimmering beautiful design
Burning through the night
As the passion's rising deep with our eyesEverything she touch turns to gold
Powers out of my control
A night with her was just a dream but now
I've turned to goldI'm not alright and I'm not ok
As thoughts of you are seepin' through my brain
If you never believe it's the golden truth
Do what you want to do
Girl cause I'm telling you
I'm hypnotized
Mesmerized
By youEverything she touch turns to gold
Powers out of my control
A night with her was just a dream but now
I've turned to goldJust a night with her you'll lose control yeah
Everything she touched it turned to gold
Her powers suck from her finger tips
Infecting people with their dirty tricks
You can't escape this metallurgy
Once was yours now just a fantasy[2x]
Everything she touch turned to gold
Powers out of my control
A night with her was just a dream but now
I've turned to gold
