## Samiam

Cracking knuckles and tapping feet  
Something isn't quite completeIgnoring my company I'm hoping  
They'll take the hint and leaveThat magazine cover that caught my eye is so inviting  
I think it's timeThat magazine cover that caught my eye is so inviting  
The bathroom floor is cold but the water is hotIt burns my skin as I get in  
But I like that a lotI like that a lot  
I like that a lot  
I like that a lotLay back and play  
Lay back and play, yeahI like that a lot  
I like that a lotLay back and play  
Lay back and play, yeah yeahI like that a lot  
I like that a lot  
I like that a lot
