

# Babygirl

## Leki

I heard you got the news today  
Seems nothin' ever goes your way, oh, no  
    Yesterday was a okay  
Now today you're feelin' like you're lost, oh  
    And he say, she say  
    She's too young, there's no way  
        Not on her own  
    But who cares what they say  
    'Cause no one can judge you at all  
It's not about who's right or who's wrong  
    'Cause you're not alone so  
    Babygirl, take it one day at a time  
    You can't just grow up overnight  
Babygirl, I know you're feelin' butterflies  
    But everything will be alright  
    Everything will be alright  
        Now everybody seems to notice you  
    'Cause you're not really tryin' to hide a thing  
Sometimes you're cool, sometimes your mood swings  
    No baggy shirts to hide the change, no shame  
    Nobody to lie to, to pry with what's inside of you  
        And he say, she say  
        She's too grown, poor thing  
        All on her own  
    But who cares what they say  
    'Cause no one can judge you at all  
It's not who's right or who's wrong  
    Girl, you're not alone  
    Babygirl, take it one day at a time  
    You can't just grow up overnight  
Babygirl, I know you're feelin' butterflies  
    But everything will be alright  
    Everything will be alright  
So when you're feelin' like life's too cold  
    Don't lose faith, just move on  
    Hold on baby, as it's worth the flight  
        And everything's gonna be alright  
So when you're feelin' like life's too cold  
    Don't lose faith, just be strong

Hold on baby, as it's worth the flight  
And everything's gonna be alright  
Babygirl, take it one day at a time  
You can't just grow up overnight  
Babygirl, I know you're feelin' butterflies  
    But everything will be alright  
    Everything will be alright  
This song is dedicated to all the single parents  
All you young girls strugglin', all on your own  
    You're courageous and beautiful  
    This song is for you
