No god

Guillotine Terror

I've read every book in the bible story
And all is every brought me was
another worry
Don't want god give me a jury,
See...there's no God to make
up my mind-
No God givin' me time...

I peered in every window where
I saw a cross
But I could never see just what they saw
In that piece of plaster on the wall,
See...there's no God to fear-
No God to hear your cries...

I'd prey to anything out there
If only I was given some sign to bear
But while I wait I'm gonna live,
See...there's no God to watch over me-
No God for human beings...

When I small I obeyed
his every word
Handed down to me by some
thoughtful blur
But now I am as big as he,
See...No God bigger than I-
No God frightening me...

In my image I made he him
and I gave him life
So he burned me,
the creature has risen and I
Think you can see just what it is
that's drivin'
Me around round...

We are the church we are good
we've got your

Millions God know we should...

[repeat first verse]
