

# Big Bad Moon

## Joe Satriani

When the night falls, the big moon's gonna rise  
You can look right up, see it in the sky  
Makes me feel like I'm going to blow a fuse  
I start to shiver and shake with a strange kind of blues  
But I like itI see it now the moon is high above  
It's got a hold on me but I just can't get enough  
Big, round, black and white, I feel the pull, I see the light  
Big bad moon's lookin' down on me tonight  
But I like itWhen the moon comes, got nowhere to hide  
It can turn your head around like it turns the tide  
Man, woman, boy, child, make you feel like you were born wild  
The big bad moon's lookin' down on me tonight  
But I like it, I like itTalkin' 'bout big bad moon  
Ooh yeah big bad moon  
Talkin' 'bout big bad moon  
Ooh yeah
