

# Escobar (Prod by Cardo) (DatPiff Exclusive)

## Young Jeezy

Last night I had a dream  
Pablo Escobar gave me 10 bricks  
And then I showed up on the scene  
Looking like I hit about 10 licks  
What's up my friend? como te llamas? my name is Jizzle  
I heard you had them whole white squares down to the Meadow  
Give me everyone of them bitches you got I get 'em off  
We can sit back and split up the profit minus the cost  
Right now I'm on my "get money" shit , no time to floss  
Man I'm talking so much money in the room I'm getting lost  
And you know we do it face to face not on the selling  
If you want 'em send them shots of the sea just like on belly  
And this bad bitch I got from the plug she snort the eight  
Told that bitch you should be same as yourself bitch wipe your face  
On the floor my columbian nigga I told 'em Cubo  
Say you 'bout to drop me a hundred I need 2 more  
All I fuck was mucho , wait, I'm talking sumo  
I play them cards just like they go I'm talking uno  
Go to sleep in the hood, woke up in that versace  
With the feds outside it's snapping like paparazzi  
Last night I had a dream  
Pablo Escobar gave me 10 bricks  
And then I showed up on the scene  
Looking like I hit about 10 licks  
We make a million, spend a million life is a fairytale  
If they catch me in the crew they gon' throw us in the jail  
If I think that they ain't right then I ain't making a sale  
FBI, DEA , shit how can you tell?  
You know I'm kicked back , just peeping the conversation  
Nigga set me up, get me indicted be complication man  
This why I stay on top of my game, my shit is smooth  
You know we ain't playing no games, my niggas rule here  
If they get you in , you say that you won't I'm just that dude  
If he ain't get stopped then you won't make in the news  
You know this shit was boom in the day, I made a killin', nigga  
I'm sick of trying countin' these millions fuck is the billions  
Got money in the couch, money all up in the ceiling  
That sick shit bitch all we need is penicillin  
Think I need to slow down the weed, I lost count  
Ran through the first three point 8 and passed out
