

# Breaking Up Is Easy

## Red Sleeping Beauty

You ask when we'll be happy  
In your torn up voice  
And I don't know Pretend this never happened  
Pretend I'm only yours  
But you do know Close your eyes and make it better.  
Close your eyes and make it go away  
No, I can't make it go away Breaking up is easy  
You don't have to try so hard  
You make it on your own  
Making up is harder  
So many things to be undone  
I'll make it on my own  
You sit across the table  
An ocean of morning silence  
Keeps us two apart You say yea dream of Paris  
And I say we should go  
But we will never go  
Close your eyes and make it better.  
Close your eyes and make it go away  
No, I can't make it go away Breaking up is easy  
You don't have to try so hard  
You make it on your own  
Making up is harder  
So many things to be undone  
I'll make It on my own  
Breaking up is easy  
You don't have to try so hard  
You make It on your own  
Making up is harder  
So many things to be undone  
I'll make it on my own
