Gemini

Idiom

Gemini, every time I try to use my mind
Seems like I gotta fight two sides
And I never know which one's right
That's my life
Gemini, every time I try to use my mind
Seems like I gotta fight two sides
And I never know which one's right
That's my life
Man since I been off in this music business shit has gotten crazy
I gotta be dealing with devils bitches and bustas daily
All ah dem was screamin' to take me on that long ride
Journey or mission, whatever you wanna call it they tryin' to get me
Listen, I'm hearing voices sayin' kill dem motherfuckers dead
Other voices saying be humble man and understand
I try to be level headed but it seems the devils winnin'
Try to do the right thing but I always end up sinnin', pin me
God won't forgive you when you pray and do the same shit
So I repent, and you can't even pay yo rent, if it ain't no dollars
Ain't no sense right now but as I stop and think
A nigga got kids right now and mine got to eat but they can't eat
If daddy's dead or in jail, so, what would you do choose heaven or hell
If it's hell you'd probably come up fast, and die that's why I wonder
Why heaven ain't the chance on my mind
Listen nigga, you plan on having thought of thangs
Then fuck everybody else, think about your self them
Motherfuckers never gave you shit fuck that nigga take that bitch
You smoke all the motherfuckin' reefa you give, kill any motherfuckers
You feel need to be killed and the niggaz that used to run with you
They ain't you friends them niggas is out to get you
And fuck this ruthless bitch, them motherfuckers ain't paid you
For shit if I was you and you was me, then I'll bust in that office
And take my profits but no, you motherfuckers tryin' to go to heaven
Be broke and ain't nobody bless you what happen to the motherfuckin'
Nigga I know the nigga that was locking the let the guns smoke
You a mastermind you need to say fuck this rap shit and put
It in some crime you money waitin' nigga ya motherfuckin' money
Ways niggas, don't let you know you gotta fight these niggas
You know you got damn right handle my pistol dawg 'cuz
I then got hype, finna be some motherfuckers dying tonight

The shit ain't right 'cuz I den stayed humble and kept it real with
You hoes and motherfuckers try to play me still nigga I know
Yeah motherfuckers is thinkin' a nigga got soft and I dropped
My sawed off and I won't break 'em off but you know a nigga
Show dem niggas, hoe ass niggas told dem niggas
If I had to fake that is was on, stop hold up nigga wait don't go
Makin' a mistake wit your life man fuck this hoe shit niggas
Is 'bout to ride, but wait, what you mean make a mistake
Motherfuckers owe me, but killing ain't the way to get it please hear me
Well how the fuck I'm pose to eat ain't no other way but it is
It ain't fuck that how you feel it is oh shit, you got to pray
They'll be a better day I can bet there'll be a better way, but you
Gotta keep ya faith don't let them demons take your soul
Don't sell your soul no, remember what you reap you so
And if you try to cheat he know fuck that save the world shit
Don't listen to that garbage, don't you know niggas gone die
Hell regardless, don't you got a family nigga what about your daughter
And that's just the reason you should trust in the Lordy Lordy Lordy Lord
So what am I to do, go dance with the devil or be true to you know who
Get paid I make due but the bad is lookin' good and the good is
Lookin' bad, shit you be the judge of that dat
Gemini, every time I try to use my mind
Seems like I gotta fight two sides
And I never know which one's right
That's my life
Gemini, every time I try to use my mind
Seems like I gotta fight two sides
And I never know which one's right
That's my life
