Baby

Bebel Gilberto

You know, you must take a look at the new land
The swimming pool and the teeth of your friend
The dirt in my hand, you know
You must take a look at meBaby, baby
I know that's the way
Baby, baby
I know that's the wayYou know, you must try the new ice cream flavor
Do me a favor, look at me closer
Join us and go far and hear
The new sound of my bossa novaBaby, baby
It's been a long time
Baby, baby
It's been a long timeYou know, it's time now to learn Portuguese
It's time now to learn what I know
And what I don't know, and what I don't know
And what I don't knowI know with me everything is fine
It's time now to make up your mind
We live in the biggest city of South America
Of South America, of South AmericaLook here, read what I wrote on my shirt
Baby, baby, I love you
Baby, baby, I love you
Baby, baby, I love you
...
