

If She Don't Love Me Now

Jason Collett

Shoot the moon, pull down the stars
If she don't love me now
Pretty soon I'll be packing my heart
If she don't love me now
Curse a big brown
If she don't love me now
I'll be crying inside
If she don't love me now Let there be no shadow of doubt
If she don't love me now if it don't
If she don't love me now
I'll be left in the cold tonight
If she don't love me now
I lost the battle and i'll lose the war
If she don't love me anymore
I'll be falling on my own sword
If she don't love me now Let there be no shadow of doubt
If she don't love me now
If she don't love me now
If she don't love me now
If she don't love me now
If she don't love me now
If she don't love me now
