Bullfight

A Day to Remember

What a waste, I see you now and then
But mostly we pretend we're not more strangers than we're friends
Then we say, what we need to say, to try and get away from the tension we createWhy can't we say the things, the things we wish we would?
Why can't we laugh the way, the way we know we should?
Fall under the weight of all the pressure that's misplaced
Flaws that I embrace
Everybody sees your head's hung low
They don't ask, they don't wanna know us
I'll be the one, I'll be your spark
I'll be your light led through the darknessI get
I get
I get so misunderstoodSomethin changed the way we interact
Now we can't get it back
Another relic of the past
Makes ya think, did I ever know you at all?
Follow until I fall
Vultures circling in the sunWhy can't we say the things, the things we wish we would?
Why can't we laugh the way, the way we know we should?
Fall under the weight of all the pressure that's misplaced
Flaws that I embraceEverybody sees your head's hung low
They don't ask, they don't wanna know us
I'll be the one, I'll be your spark
I'll be your light led through the darknessI get
I get
I get so misunderstoodYou can't just avoid the issue
Ya shoulda learned from the things we've been through
You don't know what you have until it's lost
Till the hammer dropsBrace, fallFall under the weight of all the pressure that's misplaced
Flaws that I embraceEverybody sees your head's hung low
They don't ask, they don't wanna know us
I'll be the one, I'll be your spark
I'll be your light led through the darknessI get
I get
I get so misunderstood
