## Slogun

Intense

Put your socks on and pull 'em up

We got a long ride and a velvet chair to sit on

E-mail junkies press your buttons now

The rocket fuel will last us till we push the boat out

And everybody wants to know

Is what we're given what we get

I guess the answer is we don't know yet

Intense

(I know you're feelin' it)

(But what's it comin' to when we wanna)

(Get a rocket ship outta here?)

Intense

(I know you're feelin' it)

(But what's it comin' to when we wanna)

(Get a rocket ship outta here?)

I just got to tell you

Yell it to ya girls and boys

We're gettin' hotter

You feel it too? Gotcha

Intense

Put your smile on and keep it sweet

You got your ammunition on your back but you can't use it

Are you a good soul or a bad egg?

And is our future wounded by philosophies our daddy had?

And everybody wants to see

What the mirror cannot see

Or is it something that we just can't see yet?

Intense

(I know you're feelin' it)

(But what's it comin' to when we wanna)

(Get a rocket ship outta here?)

Intense

(I know you're feelin' it)

(But what's it comin' to when we wanna)

(Get a rocket ship outta here?)

I just got to tell you

Yell it to ya girls and boys

We're gettin' hotter, gotcha

Intense  
Days go by and by  
Like your blood is running through you  
(Sometimes we sit and watch the world cry)  
Sunny starts the day and rain it ends  
But still they pass us by  
Like stress has got its hold on you  
You never sit back realize you're so  
Intense  
(I know you're feelin' it)  
(But what's it comin' to when we wanna)  
(Get a rocket ship outta here?)  
Intense  
(I know you're feelin' it)  
(But what's it comin' to when we wanna)  
(Get a rocket ship outta here?)  
I just got to tell you  
Yell it to ya  
We're gettin' hotter, gotcha  
Intense  
(I know you're feelin' it)  
(But what's it comin' to when we wanna)  
(Get a rocket ship outta here?)  
Intense  
(I know you're feelin' it)  
(But what's it comin' to when we wanna)  
(Get a rocket ship outta here?)  
Intense  
(I know you're feelin' it)  
(But what's it comin' to when we wanna)  
(Get a rocket ship outta here?)
