Wonderland

Pullman Standard

I'll speak highly of your chemicals
If you're real naughty like the other girls
When I write this letter of repentance
Please delight on feeding off the excess
Now smoke delivers anonymity
As I choke on partial ambiguity
But beauty seems to be your only weapon
In defense I'll savor your attention
Graced with the topic of sobriety
When you're caught between the words that cry to me
Stop the fiction
Feel this friction
This is a place you've come to know as Wonderland
I'll turn it upside down to further understand
A party's a party if we paint the roses red
And fool the Queen of Hearts
Look all around you, this is not our world
Itâ€™s Wonderland
March with a pleasant disposition
When the cards fold like dominoes you listen
As they lose their heads to foolish accusations
You'll be left on trial with the aces
One side allows you the ambition
When the other is not what you envisioned
But you correspond with dignity
For the preacher says you shouldn't advertise yourself
But you do it anyway
This is a place you've come to know as Wonderland
I'll turn it upside down to further understand.
A party's a party if we paint the roses red
And fool the Queen of Hearts
Look all around you, this is not our world
Itâ€™s Wonderland
We're in Wonderland
(Say this with me if you're lost like the rest)
Never stop and reason if you seldom take your own advice
While cabbages and kings procure a lesson of another kind
If madness claims irrelevance tenacious we go hand in hand
What's the hurry?

Who are you?
Provided we're in Wonderland.
I'll speak highly of your chemicals
If you're real naughty like the other girls
When I write this letter of repentance
You'll be mine
This is a place you've come to know as Wonderland.
I'll turn it upside down to further understand
A party's a party if we paint the roses red
And fool the Queen of Hearts
Look all around you, this is not our world
It's Wonderland
This is a place you've come to know as Wonderland
I'll turn it upside down to further understand
A party's a party if we paint the roses red
And fool the Queen of Hearts
Look all around you, this is not our world
It's Wonderland.
