

Run Run

Smokie Norful

Run Run, Run Run, Run Run
Thought about where I came from
Thought about how far I've come
Been through so many cloudy days
Rain rain now go away Been through so many ups and downs
Had my name be the talk of the town
Found myself wanting to walk away
But now you go cause I going to stay
Doesn't matter that I am not there yet
Cause I made it this-- farChorus
Run, Run and I won't look back
Gonna keep my head on cause I'm on the right track
Run, Run and I won't turn around
Cause I got my life back and I am stronger now It's been hard getting people to see
How much I changed they don't believe in me
But I am determined that I'm not letting go
I've seen the devil and his down that road Been through so many ups and downs
Had my name be the talk of the town
Found myself wanting to walk away
But now you go cause I going to stay
Doesn't matter that I am not there yet
Cause I made it this-- farChorus (2x) I've been proven tested and even tried
I've had moments that I almost died
But I will walk through the portal of life
And I won't go back Oh
Run Run Oh (3X) I've got my life back and I am stronger- stronger- stronger now
Run Run Oh (3X) Now I can say to myself I've got my life back and I am stronger now
