

Nothing

Secret Circus

Iâ€™ve gone thru the entire emotional spectrum.
Ups and downs and everything in between.
Everything and then some, and itâ€™s all just left me all numb.
Iâ€™ve gone thru it all, now thereâ€™s really nothing left to feel.

Chorus:

I feel nothing. Cause thereâ€™s nothing left to feel.
I feel nothing. Thereâ€™s really nothing left to feel.
Thereâ€™s nothing left to do. I feel nothing at all for you.

It may sound like such a cliché but I feel empty inside.
I might smile, but thatâ€™s just to hide the fact that part of me has died.
I know It sounds all emo and shit, but thatâ€™s not it...

[Chorus]
