

# Lepers Among Us

## Dimmu Borgir

Annihilate!  
The commotion breeding the perverse  
For bloodbath is on your doorstep  
A mass impending threat  
The perfection of religion  
Becoming our deathDo not respond blindly  
To growing gardens in decay  
Stand guard when visitors fall silent  
Blow the candles out, end the road hereNo solace will be found  
Within elements of the tribe  
When covered with filth from all sides  
Compassion will failTheir promises are honored  
In a mind controlled state  
The absence of reality, reason and logic  
Prove failure of faithEnriched by the presence of it's clarity  
Darkness descends, everyone diesNo solace will be found  
Within elements of the tribe  
When covered with filth from all sides  
Compassion will failTheir promises are honored  
In a mind controlled state  
The absence of reality, reason and logic  
Prove failure of faithFor wisdom aligns in our favor  
Illuminated before our eyesUncover!  
A new beginning, the inevitable dawn  
Justice will be given where justice is due  
And guide the righteous ones  
Back to the final resting ground  
To perceive the truly hellboundDemonstrate superiority  
A grand gesture of liberation need no judge or jury  
Demons rate inferiority  
Scatter the remains of the preyDo not respond blindly  
To growing gardens in decay  
Stand guard when visitors fall silent  
Blow the candles out, end the road hereUncover!  
A new beginning, the inevitable dawn  
Justice will be given where justice is due  
And guide the righteous ones  
Back to the final resting ground  
To perceive the truly hellbound
