# Getting Bright At Night

## The Icarus Line

Stealing never felt so good
Spoiled teens wish us well, as they should
Feeling lower than low babe, every day
Getting higher than high, starting to fade awayI wont fall in love anymore, I wont fall
Loose lips sink ships, so let's just be friends
Stay up all the time now, never crash again
Glass on the carpet cuts our facesGirl's green eyes destroy everyday
(Now that feels great)
I dont want to fall in love anymore
But I cant stop falling in love
And stimulation fits like a gloveGot no soul? Girl, Ill die laughing
Die alone, all by my accident
While Im awake for days
Surreal sways on the wayNo, hearts hurt [unverified], missed every morning
Im getting tired of missing every morning
But never give up on me babeOh God, I been dancing in the darkness again
And I dont love anyone
Oh God, I been messing with the forces again
And I dont know what Ive done
