

# In a Parade

Paul Simon

## IN A PARADE LYRICS

Some nights the ER is quiet as an EKG  
But tonight it feels like every broken bone  
Tonight it feels like every wounded soul  
Is filling out a form or on the 'phone I can't talk now, I'm in a parade  
I can't talk now, I'm in a parade  
Can't talk to you now, I'm in a parade  
I can't talk now, I'm in a parade  
Diagnosis: schizophrenic  
Prognosis: guarded  
Medication: Seroquel  
Occupation: Street Angel I drank some orange soda  
Then I drank some grape  
I wear a hoodie now to cover my mistake  
My head's a lollipop  
My head is a lollipop  
My head's a lollipop and everyone wants to lick it  
I wear a hoodie now so I won't get a ticket  
I write my verse for the universe  
That's who I am I can't talk now, I'm in a parade  
I can't talk now, I'm in a parade  
I can't talk now, I'm in a parade  
Can't talk to you now, I'm in a parade  
Diagnosis: schizophrenic  
Prognosis: guarded  
Medication: Seroquel  
Occupation: Street Angel
