Are You Ready?

Hazen Street

We talk about it, now be about it
It's not so hard to scream and shout it
Everybody's so down when it's safe and sound
You wanna prove something, well do it nowAre you ready to die for us, are you willing to lose your freedom?
Are you ready, are you with me or not
'Cause I'm going all out so show me what you got?
So are you ready, are you ready or not
'Cause I'm going all out so show me what you got?We do or die on the front lines
So when it's time, you better make up your mind
Walk around talking loud in a crowd
You wanna prove something, well show me nowAre you ready to die for us, are you willing to lose your freedom?
Are you ready, are you with me or not
'Cause I'm going all out so show me what you got?
So are you ready, are you ready or not
'Cause I'm going all out so show me what you got?Show me what you got, show me what you gotYou talk about it you talk about it, now be about it be about it
It's not so hard when you scream and shout it
Everybody's so down when it's safe and sound
You wanna prove something, do it nowAre you ready, are you with me or not
'Cause I'm going all out so show me what you got?
So are you ready, are you ready or not
'Cause I'm going all out so show me what you got?Are you ready, so are you ready?
Are you ready are you ready, are you ready are you ready?
Are you ready are you ready, are you with me or not?
