

# I Am Near the Gate

## Blue Highway

Stormy waters in this life come rage around me every day  
But I am near the gate  
No evil fate can come and tempt me off the straight and narrow way  
For I am near the gate

I'm near the gate that leads to glory  
That narrow way I'm passing through  
A band of angels stand to greet me  
I am near the gate

One day this ever changing life will change forever for us all  
I am near the gate  
Each of us will choose the path we're on the day that he will call  
I am near the gate

When my body lies before the multitude to gather round  
I am near the gate  
I'll be going to a place where angels gather all around  
I am near the gate

---
