Tell Me

Camel

Tell me everything
Don't be afraid to give yourself away
Sometimes it's easier
Your fears melt away and turn it all
To moonshine, words that rhyme
Still in your mind, still in your mindPlay me anything
Maybe music is the only way
To tell me how you feel
Somehow, you'll find the way
And all the words to your song will carry on
Still in your mind, still in your mind, still in your mind
