

Together (feat. Newtimers) [Radio Edit]

Cazzette

If I'm gonna stay here for the night
Would you let me stay until the morning?
Wake up by your side and love you right again
If I'm gonna stay here for the night
Would you let me stay until the morning?
Crawl under your skin and love you right again

I got to take it slow
With you, my darling
I'm trying, but you get me excited
It's magic
With you, I lose control
It's you, my darling
Can't stop it
You're the one that I'm laying
You got it?

If I'm gonna stay here for the night
Would you let me stay until the morning?
Wake up by your side and love you right again
