

Want It All

Cam

Been a-sittin' 'round a coward, broken all that I can break
Cried my eyes out in a bathroom stall of every western state
Still, I ain't stoppin' 'cause there's more that I can take
Got my angels and my demons and I think we all agree
If you're gonna go for something, better make it everything
I believe in the end I'll see that it's alright, alright
Babe, I'll put my heart on the line I want it all
Don't want no rocking-chair regrets
I got that fire and it's burning in my chest
Gonna keep on living 'til I hear the last call
And I, I, I want it all Bet my life on it
Made my bed, gonna lie on it
Made up my mind that I won't just get by or get lost in it
I won't listen to your rumors, I won't listen to your doubts
Too much ain't enough, so don't try to slow me down
Know what I'm thinking that I want it now
Yeah, it's alright, alright
Babe, I'll put my heart on the line I want it all
Don't want no rocking-chair regrets
I got that fire and it's burning in my chest
Gonna keep on living 'til I hear the last call
And I, I, I want it all The song inside me won't be turned down
I know I'm making my old self proud
Love without conditions, no inhibitions
I know I'm gonna lose sometimes I want it all
Don't want no rocking-chair regrets
I got that fire and it's burning in my chest
Got a whole lot of living that I haven't done yet
And I, I, I, I
I want it all I want it all
Don't want no rocking-chair regrets
I got that fire and it's burning in my chest
Gonna keep on living 'til I hear the last call
And I, I, I want it all
I want it all
I want it all
I want it, want it all
