

# Von Maur Massacre

## Desaparecidos

Tearing all the posters off the wall  
Never leave my bedroom but I'm going to the mall  
This world is full of liars and it's Christmastime  
To pay for fake affection you'll have to stand in line  
Woman with the stroller likes the latest trends  
Bet she'll still look perfect at the automatic end  
Hide or beg  
Doesn't matter either way  
Just count the ones that drop  
Not scream or scatter  
Careful when I aim  
Even dead and gone I'll live forever  
They will know my name  
The news said that the safe was left unlocked  
His mother was a monster, his stepdad was a cop  
No one paid attention to the warning signs  
Can never be too careful that is why I carry mine  
Proud and brave  
But I will say I was afraid  
Stand the ground you got  
Don't duck or cover  
Careful when I aim  
Shoot or you'll be shot  
Hero forever  
They will know my name  
Just count the ones that drop  
Not duck or cover  
Careful when I aim  
Even dead and gone I'll live forever  
They will know my name
