

Harmony

Never Shout Never

I am I, you are you, we are we
We could live in such harmony
Can't you see apathy lies between?
We could live in such harmony And I am praying for the day
When you and I and he and she are we
When you and I and he and she are we
Humanity will sing harmony We start a war but what's it for
We fight for peace
Peace will find us with harmony So trade your guns and fire with doves
We fight for love
And peace will find us with harmony And I am praying for the day
When you and I and he and she are we
When you and I and he and she are we
Humanity will sing harmony So one for all and all for one, we for we
We could sing in such harmony
I work for you, you work for me, we work for free
And we could sing in such harmony And I am praying for the day
When you and I and he and she are we
When you and I and he and she are we
Humanity will sing harmony
