

If It's Going to Work

K-Ci & JoJo

I'm tellin' the truth, you don't believe a word
How can we start over again? I know I lied
You said let's try but still you won't let me in
And girl it's easy to confess when the truth's been revealed
And it's easy not to believe the word that I am saying So baby if you want me
(If you really want me)
And baby if you need me
You gotta let me know
With us there's still a chance
(You gotta let me know)
You gotta put the past behind us
And start all over again
(Start all over again)
I got to know if it's going to work
(If it's going to) When circumstances don't seem right
Why can't you just go on with the fact
Not what you hear but what you know
You wanna believe the bad
After we work it out
Why do you bring it up again?
I know it's gonna be so hard
But we've got to start somewhere So baby if you want me
And baby if you need me
(Baby if you need me)
You gotta let me know
With us there's still a chance
(You gotta let me know)
You gotta put the past behind us
And start all over again
(You better start all over again)
I got to know if it's going to work
(I got to know) I never loved no one like you
(Never, never, never, never, never)
It doesn't matter who you think you we're before
I'm tryin' real hard
(Yes I am)
To bring back the trust
If we don't bring it back
There's gonna be no more us So baby if you want me

And baby if you need me
You gotta let me know
With us there's still a chance
(You gotta let me know)
We gotta put the past behind us
And start all over again
I got to know if it's going to workBaby baby ooh yea
Can I get a witness?
It's gonna be alright
Can I get a witness?
I said let me know and I need to know
I gotta know right now baby, ooh yeah, ooh
