# Dj Made Me Do It

## Shontelle

Seven in the morning (morning), seven messages on my cell phone
Already know who's calling (calling), I better get home
I'm innocent (innocent), it wasn't my fault, DJ had me caught up
I said baby please believe me before you stop and start screaming
I know you see my make up running but I swear I got a reason
Me and my girls went to the disco, I know I told you I would come right back
But as soon as I heard that good music, I just didn't know how to act, so listen to me now
[Chorus:]The DJ made me do it babe, hey
The DJ made me do it babe, whoo!
DJ made, D-DJ made me do it babe
DJ made, D-DJ made me do it babe
The drinks just started flowing and the party baby, didn't want to end
Guess I'm just a slave to the dance floor, love at first hand it had me all night long
I'm innocent (I'm innocent) it wasn't my fault, DJ had me caught up
I said baby please believe me before you stop and start screaming
I know you see my make up running but I swear I got a reason
Me and my girls went to the disco, I know I told you I would come right back
But as soon as I heard that good music, I just didn't know how to act, so listen to me now
[Chorus:]The DJ made me do it babe, hey

The DJ made me do it babe, whoo!
(Come on baby, it wasn't my fault)
DJ made, D-DJ made me do it babe
(Come on baby it wasn't my fault)
DJ made, D-DJ made me do it babe
[Asher Roth:]Ah yes, T.J.I.F, I need to let it go forget, no stress
No need to be at home with a role instead
And my favorite DJ is on the one, two step
No sweat, I'm a have to go get
Checking out the girl in the tight black dress
And when she dance to the music it's sex
Can't wait to find out what he's gonna play next
My dance move is a little ripped move
With a little two step and a little boom boom
So cruel that I'm removing the room
Shoot, look what the DJ made me do
(Come on baby) the DJ made me do it babe
(You know I love you, I'd never hurt you) the DJ made me do it babe
(No no no, hey hey) DJ made, D-DJ made me do it babe

(You know I never lie to you, I promise) DJ made, D-DJ made me do it babe
It wasn't my fault
