

Still Waters (Run Deep)

Bee Gees

Still waters run deep
Just remember when we lie to each other
No one wins and losers weep
Reflection will show
This connection - we can lean on each other - this is all we need to know

I admit I've been a fool sometimes
I believe I may be losing you
It's now or never, we talk before a tear is shed
Under your spell and over my head
You took me in your arms, and you told me
We don't need to worry but you,
you never say you're sorry

Keep this love alive for us, it's all I feel...
How can we survive if we change what is real?

Still waters run deep
Just remember when we lie to each other, no one wins and losers weep (nobody wins..)
Reflection will show
This connection - we can lean on each other
This is all we need to know

I see the angel and the devil in your heart
I confess, either one is my addiction
And where you're leading me I don't have the will to fight
Out of the darkness, into the light
But living in your arms I can take it
Please don't make me shiver
I know together we deliver

Let the gods decide, who finds, the sweetest thrill
Who can justify the truth
Girl, I love you still

Still waters run deep
Just remember when we lie to each other, no one wins and losers weep (nobody wins...)
Deception will show
It's a struggle when you're starved for affection

This is all we need to know...Oohh Oohh...

Don't let him get too close to you
(You've got a stranger on your mind)

The dream is free

I know I'm only human if I cry, cry...
(Or, maybe we should kiss and say goodbye)

Girl, I love you still

Still waters run deep

Just remember when we lie to each other
No one wins and losers weep (nobody wins...)

Deception will show

It's a struggle when you're starved for affection

This is all we need to know

Still waters run deep

Just remember when we lie to each other

No one wins and losers weep

Reflection will show

This connection - we can lean on each other

This is all we need to know
