

# Talk To Me

## DJ Encore

Talk to me, I can only hear you breathe  
Don't hold back, set my mind at ease  
Tell me, don't wait till the morning breaks

I need to know, I need to knowWhen I'm here for you won't you show me through? This silence can't go on  
You don't have to turn away and leave me alone

When I'm here for you won't you show me through? This silence can't go on  
You don't have to turn away and leave me aloneSpeak to me, I have to understand  
What's going on? Do you feel the same  
Tell me, don't wait till the morning breaks

I need to know, I need to knowWhen I'm here for you won't you show me through? This silence can't go on  
You don't have to turn away and leave me alone

When I'm here for you won't you show me through? This silence can't go on  
You don't have to turn away and leave me aloneWhen I'm here for you won't you show me through? This  
silence can't go on

You don't have to turn away and leave me alone  
When I'm here for you won't you show me through? This silence can't go on  
You don't have to turn away and leave me alone, and leave me aloneWhen I'm here for you won't you show me  
through? This silence can't go on  
You don't have to turn away and leave me alone
