Never In A Million Years

Apollo Brown

Oh, if I could touch you
It'd be a once in a lifetime dream come true
And oh, if I could have you
Just one night, just one time
But I know I'll never get the chance
I'll never get a second glance
Never in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million years
Oh, I need you
If you could only see inside my heart
And oh, to be near you
Close enough to reach and touch
Well, I've thought it over in my mind
If I could walk across the bridge of time
Never in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million years
But I know, I'll never, never
Never get the chance
I'll never get a second glance
Never in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million years
Never, never in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million years
