

# Guilty by Association

## H2O

Six years ago a very hot summer night  
Avenue A with my friends hanging tight  
No future, no goals and no destiny  
Hanging on the corner for the world to see  
Some friends drunk and some friends high  
Laughing talking shit as the people walked by  
The air was tense and muggy as fuck  
Lower east side running a muck  
Guilty by association, judged by who I know  
Can't keep all my friends out of trouble  
When they got no place to go  
Guilty by association, judged by who I know  
Can't keep all my friends out of trouble  
When they got no place to go  
Me drug free  
In the midst of it all  
Crazy fucking summer  
Hanging out with mad ball  
People got their ass kicked, people got hurt  
But I was accepted for all it was worth  
Bad reputations are hard to live down  
I'm not guilty for who I hang around  
Guilty by association, judged by who I know  
Can't keep all my friends out of trouble  
When they got no place to go  
Guilty by association, judged by who I know  
Can't keep all my friends out of trouble  
When they got no place to go  
Sometimes I felt like an outcast  
Trying to talk my friends out of trouble  
Tried to be a positive role model  
But I got caught up in the rumble  
We had ideas scribbled on walls  
Six years later our destiny calls  
Living our lives some of us in bands  
Touring the world but we know where we stand  
We play shows together  
Or just hanging out  
Talking 'bout the good times  
How we got out  
Still the same fellas and we're still all tight  
Young till we die and ready to fight for what's right  
As I look back now on that summer vacation  
I realize I'll always be guilty by association  
Guilty by association, judged by who I know  
Can't keep all my friends out of trouble  
When they got no place to go  
Guilty by association, judged by who I know  
Can't keep all my friends out of trouble  
When they got no place to go  
As I look back now on that summer vacation  
I realize I'll always be guilty by association
