

# Twin

## Morphadron

Your warmth, your warmth,  
Is so deep,  
Your gaze,  
Beams a hole inside meControlling again  
Unseparated twins  
Controlling againYou've sucks  
All the breath out of me  
You'll squeeze  
All the life out of meControlling again  
Unseparated twins  
Controlling againControlling again  
Unseparated twins  
You'd rather be  
Come gentle, slowly,  
Gentle...
