

Last Breath

Mad Caddies

Still awake on a winters day
Skies are gray and they're cold
Smoke signals from my last cigarette
Lets me know that it's finally getting old
Everybody hates me for the night before
The man you saw wasn't me
And now there's blood upon the bathroom floor
I've got a disease Wait a while
All I need is a friend
Come on, stay a while
Won't you please understand
Understand? I'm fucked up with nothing ahead but the end
I know that I'll never get sober
And I'm fed up with this miserable life after death
I know that I've taken my last breath Memories of how it used to be
Painted thick on my walls
Cold illusions pumping through my veins
Felt them there but I didn't hear them call
Washed away all my darkest fears
Shoved them down to my soul
I keep them aged like a vintage wine
I'm sure they'll come out when it's ready to go Wait a while
All I need is a friend
Come on, stay a while
Won't you please understand
Understand? I'm fucked up with nothing ahead but the end
I know that I'll never get sober
And I'm fed up with this miserable life after death
I know that I've taken I'm fucked up with nothing ahead but the end
I know that I'll never get sober
And I'm fed up with this miserable life after death
I know that I've taken my last breath My last breath
My last breath
I've taken...
