

# Let It Grow (Celebrate The World)

Ester Dean

When I see inside the Earth  
Just one way to know its worth  
When we celebrate the world  
Celebrate the world  
Come on and  
Celebrate the world  
Celebrate the world All you gotta do,  
All you gotta do is live your life  
Be true, live your life, be true, and  
Never be afraid, never be afraid to grow, oh (x3) grow, oh (x3) It don't matter how you felt it  
You're sure not, you should let it  
Let it grow oh oh, let it grow oh oh Let the love inside you show it  
Just one way to know you're worth it  
Let it grow oh oh, let it grow oh oh Just believe and you're almost there  
Use your heart to show you care  
Come on and celebrate the world  
Celebrate the world  
Come on and  
Celebrate the world  
Celebrate the world  
yeah (x4) hey  
All you gotta do,  
All you gotta do is live your life  
Be true, live your life, be true, and  
Never be afraid, never be afraid to grow, oh (x3) grow, oh (x3) It don't matter how you felt it  
You're sure not, you should let it  
Let it grow oh oh, let it grow oh oh Let the love inside you show it  
Just one way to know you're worth it  
Let it grow oh oh, let it grow oh oh It's your turn now  
To show your world now  
Open up your heart and let it grow woah oh woah  
It's your turn now  
To show your world now  
Open up your heart and let it grow oh oh It don't matter how you felt it (it don't matter)  
You're sure not (sure not), you should let it  
Let it grow oh oh (yeah yeah), let it grow oh oh Let the love inside you show it  
Just one way to know you're worth it  
Let it grow oh oh oh (ho woah woah), let it grow oh oh [Lyrics to Let It Grow (Celebrate The World) performed
