

# Ghost

## Erasure

Go to bed, sleepyhead  
The boys have all gone away  
You must be brave, ride the wave  
See the world in a day  
I'm sorry, she's a lady  
But a ghost from the past  
Haven't seen my honey lately  
Said our love wouldn't last  
Soldier blue, we've come for you  
Half a crown for the chest  
The little bird, she fell to earth  
Perhaps us all for the best  
I'm sorry, she's a lady  
But a ghost from the past  
Haven't seen my sugar lately  
Said our love wouldn't last  
Ooh, woah, but a ghost from the past  
Ooh, woah, hero  
Ooh, woah, hero  
Go to bed, you sleepyhead  
The boys have all gone away  
You must be brave, ride the wave  
Save the World in a day  
Now I'm sorry, she's a lady  
But a ghost from the past  
Where's my honey been lately?  
Said our love wouldn't last  
Ooh, woah, hero  
Ooh, woah, hero  
You can hear the birds  
Can you feel the air?  
Can you see the light?  
Are you everywhere?  
Can you really fly?  
Can you feel the air?  
Can you see the light?  
You can be at one  
You can hear the birds  
Can you feel the air?

Can you see the light?  
Are you everywhere?  
Can you really fly?  
Can you feel the air?  
Can you see the light?  
You can be at one  
You can hear the birds  
Can you feel the air?  
Can you see the light?  
Are you everywhere?  
Can you really fly?  
Can you feel the air?  
Can you see the light?  
You can be at one  
Can you really fly?  
Can you really fly?  
Can you really fly?  
Can you see the light?  
A ghost from the past  
Said our love wouldn't last  
A ghost from the past  
Said our love wouldn't last  
A ghost from the past  
Said our love wouldn't last  
A ghost from the past  
Said our love wouldn't last  
A ghost from the past  
Said our love wouldn't last  
A ghost from the past  
Said our love wouldn't last
