

# Rolling Blackouts

## The Go! Team

over the range  
the secret is what we became  
now only the secret remainsdon't settle on me now  
the cover is blown with a touch  
we go when they're asking too muchgot a history and its catching up  
crossed the nation like a rolling blackout  
got the mystery but its not enough  
ain't a prison but you'll never get outrealise  
staying over is yr only prize  
now i know  
some forget...  
but i don'tthe road before us  
we move on and never let out  
the things we had whispered aboutback to the mirror now  
theres nobody left to defend  
its here that my loyalty endsgot a history and its catching up  
crossed the nation like a rolling blackout  
got the mystery but its not enough  
ain't a prison but you'll never get outrealise  
staying over is yr only prize  
now i know  
some forgive...  
but i don'tno delay  
get out today  
get out if only i could  
letting go  
i could say no...  
but i won't
