Undone

Haley Reinhart

Verse 1
I?m sorry I?m really a mess right now
I?m trying my best to get it together somehow
I can?t see this way, locked up in this pain that you left me
I?m unraveling, looking for things that?ll never be
Pre Chorus
Stars fade away, they just crash into space
Disappear from the night like you and I
Chorus
Tell me where loves goes when it?s gone
Tell me where hearts go when they go wrong
Suddenly someone is no one, I?ve come undone Undone, undone
Undone, undone, undone
Verse 2:
I?m sorry I let me fall for you
I can erase you and forget you, but I can?t undo you You?re the hand I can?t hold, the words I?m not told when I?m lonely
And I don?t want you back, I just want to have what you took from me
Pre Chorus:
Stars fade away, they just crash into space
Disappear from the night like you and I

Chorus:
Tell me where love goes when it?s gone
Tell me where hearts go when they go wrong
Suddenly someone is no one, I?ve come undone Undone, undone
Undone, undone, undone
Bridge:
I?ll come around again
I know it?s not the end
But right now I?ve got nowhere to begin,
To begin
Chorus:
Tell me where love goes when it?s gone
Tell me where hearts go when they go wrong
Suddenly someone is no one, I?ve come undone Undone, undone
Nothing but emptiness inside
Love leaves a black hole when it dies
How can I ever love again? I?ve come undone

Undone, undone
Undone, undone, undone
Undone, undone
